TEST REPORT

Applicant: **METAVISIO**

80/84 ROUTE DE LA LIBERATION 77340 PONTAULT COMBAULT Address:

France

The following samples were submitted and identified by/on behalf of the client as:

Manufacturer: ShenZhen Weihejia Electronics Technology CO., LTD

Room 102, No. 9, Xihu Industrial Zone, Xikeng Community. Yuanshan Address:

Street, Longgang District, Shenzhen

Production plant: ShenZhen Weihejia Electronics Technology CO., LTD

Room 102, No. 9, Xihu Industrial Zone, Xikeng Community. Yuanshan Address:

Street, Longgang District, Shenzhen

Client Contact Number:

Sample name: Tablet

Sample Condition: Intact

Trademark: **THOMSON**

TEO8M2BK32LTE, TEO8M, TEO8M2BL32LTE, TEO8M2SL32LTE,

TEO8M2T32LTE, TEO8M4BK64LTE, TEO8M4BL64LTE, Model /Type:

TEO8M4SL64LTE, TEO8M4T64LTE, TEO8M2BK16LTE,

TEO8M2BL16LTE, TEO8M2SL16LTE, TEO8M2T16LTE

Sample Receiving Date: May. 29, 2023

Testing Period: May. 29, 2023~ Jun. 26, 2023

Report No.: DH2023050031-2 Date: Jun. 26, 2023 Page 2 of 10

	Test Requested:	Conclusion:
1.	Recycling/Recovery Targets under the 2012/19/EU WEEE Directive	Pass

Ding Hua International Certification(Shenzhen) Co.,Ltd.

Signature of Authorized Representative

Authorized signatory

Report No.: DH2023050031-2 Date: Jun. 26, 2023 Page 3 of 10

Result of Reuse/Recycling/Recovery Assessment

Recycling/Recovery	Recycling (%)	Recovery (%)
Recycling/Recovery Targets under the 2012/19/EU WEEE Directive	70	80
Result of Assessment	82.59	86.19
WEEE requirement compliance	ОК	ОК

Appearance of the Product

Ding Hua International Certification (Shenzhen) Co. LTD. 409-1, building F, Guanghong Meiju, No. 163 North Pingxin Road, Hehua community, Pinghu Street, Longgang District,

> **Shenzhen City** Web:http://www.dhia.com.cn

Report No.: DH2023050031-2 Date: Jun. 26, 2023 Page 4 of 10

2. Selective Treatment for Materials and Components

According to Articles 6(1) and the Annex II of the WEEE Directive, this product contains components and material items are described in the following table.

Component/Material	Photo No.	Size & Quantity	Weight (g)
Printed circuit boards of mobile phones generally,	5	55.755 cm ² ×1	19.5
and of other devices if the surface of the printed			
circuit board is greater than 10 square centimetres		13.02 cm ² ×1	17.5
Batteries	6	100cm ³ ×1	62.2

Report No.: DH2023050031-2 Date: Jun. 26, 2023 Page 5 of 10

3. Disassembly Tree

Ding Hua International Certification (Shenzhen) Co. LTD. 409-1, building F, Guanghong Meiju, No. 163 North Pingxin Road, Hehua community, Pinghu Street, Longgang District,

Report No.: DH2023050031-2 Date: Jun. 26, 2023 Page 6 of 10

Report No.: DH2023050031-2 Date: Jun. 26, 2023 Page 7 of 10

4. Disassembly Procedure

The disassembly procedure taken here is in accordance with the treatment requirements under the Annex VII of the WEEE Directive. In addition, to consider economic and efficiency factors, manual operation and disassembly tools have been applied to separate the components and materials from this product in order to simulate the scenario at the treatment facility, and to achieve the objective that the separated components and materials can be recycled and recovered.

(1) Connection technique:

For this product, the connection technology including as following: Screw, Welding and Adhere.

(2) Disassembly tool:

The disassembly tools used for this product show as following:

Disassembly Tool	Pictures	Disassembly Tool	Pictures
Cross screwdriver	0	Side Cutter Plier	

(3) Disassembly time:

1hour under one person

(4) Loss during disassembly

Product weight before disassembly:391.6g (A product and accessory) Product weight after disassembly:390g (A product and accessory)

Lost rate: 0.41%

Report No.: DH2023050031-2 Date: Jun. 26, 2023 Page 8 of 10

Material and Recycling Information 5.

According to the information declared by the applicant company, the material and recycling information for this product is described in the following table.

The reuse, recycling and recovery assessment for this product is based upon economic and efficiency considerations, and the waste treatment technologies and equipment that are most frequently available to the market.

Photo No.	Component / Material Composition	Weight (g)	Percent Weight (%)	Reuse/ Recycling (%)	Energy Recovery (%)	Recovery (%)
2	Plastic parts	99.2	25.43	22.37		22.37
1	Metal parts	44.5	11.41	10.84		10.84
6	Batteries parts	62.2	15.95	14.04		14.04
5	Printed circuit boards	37	9.49	8.01		8.01
4	glass	122.5	31.41	27.33		27.33
3、7	others	24.6	6.31		3.60	3.60
	Total	390	100.00	82.59	3.60	86.19

6. Recycling and Recovery Rate Calculation

Reuse Recycling& Recovery Rate using in the report are calculated as following formulas:

$$\begin{aligned} \text{Reuse \& Recycling Weight} & \text{ (\%)} \\ \text{Recovery Rate=} & \frac{\text{Reuse \& Recycling Weight}}{\text{Product Total Weight}} & \text{ (\%)} \\ \\ & \frac{\text{Reuse \& Recycling Weight} + \text{Energy Recovery Weight}}{\text{Product Total Weight}} & \text{ (\%)} \\ \end{aligned}$$

Total weigh of the product is including the main product and accessories.

Report No.: DH2023050031-2 Date: Jun. 26, 2023 Page 9 of 10

7. ANNEX II of WEEE Directive

Selective treatment for materials and components of waste electrical and electronic equipment:

- Polychlorinated biphenyls (PCB) containing capacitors in accordance with Council Directive 96/59/EC of 16 September 1996 on the disposal of polychlorinated biphenyls and polychlorinated terphenyls (PCB/PCT) (1),
- Mercury containing components, such as switches or backlighting lamps,
- Batteries,
- Printed circuit boards of mobile phones generally, and of other devices if the surface of the printed circuit board is greater than 10 square centimetres,
- Toner cartridges, liquid and pasty, as well as colour toner,
- Plastic containing brominated flame retardants,
- Asbestos waste and components which contain asbestos,
- Cathode ray tubes,
- Chlorofluorocarbons (CFC), hydrochlorofluorocarbons (HCFC) or hydrofluorocarbons (HFC), hydrocarbons (HC),
- Gas discharge lamps,
- Liquid crystal displays (together with their casing where appropriate) of a surface greater than 100 square centimeters and all those back-lighted with gas discharge lamps,
- External electric cables,
- Components containing refractory ceramic fibres as described in Commission Directive 97/69/EC of 5 December 1997 adapting to technical progress Council Directive 67/548/EEC relating to the classification, packaging and labelling of dangerous substances,
- Components containing radioactive substances with the exception of components that are below the exemption thresholds set in Article 3 of and Annex I to Council Directive 96/29/Euratom of 13 May 1996 laying down basic safety standards for the protection of the health of workers and the general public against the dangers arising from ionising radiation,

Report No.: DH2023050031-2 Date: Jun. 26, 2023 Page 10 of 10

 Electrolyte capacitors containing substances of concern (height > 25 mm, diameter > 25 mm or proportionately similar volume)

8. Recommendations for WEEE Directive Compliance

- In order to avoid the product not meeting the reuse/recycling/recovery targets regulated under the WEEE Directive and the regulations of EU countries, the applicant company should, when selecting material and components design, consider they can be easy to reuse and recycle. This consideration will lessen the impact of the required international environmental directives and also improve the product's competitiveness.
- It is recommended that the applicant company, when designing new product, especially where components and materials have a large weight ratio, should consider using recyclable materials in order to increase the product's reuse/recycling/recover ratio.
- The product should apply to the RoHS Directive (Directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronics equipment). The hazardous substance specification in the Directive should be controlled in the homogenous material of this product.

If a product has changed its product design, or materials or components employed, then the product should be reassessed and retested in accordance with the WEEE Directive for reuse/recycling/recovery assessment and RoHS for restricted/ banned substances requirements.

The results of this report apply only to samples received,	Without writter
authorization, any copy of this report for propaganda	is invalid.
